Easy to clean and maintain

- Automatic cleaning and de-scaling
- Removable brewing group

PHILIPS
sense and simplicity

Highlights

Espresso and long coffee

Whether you want to enjoy an espresso or a long coffee - your favorites are accessible with a touch of a button

Adjustable ceramic grinders

Whole beans are freshly ground for every cup by ceramic grinders, always preserving their full aroma and never overheating the coffee.

Autocleaning and de-scaling

Easy to use includes easy maintenance: Thanks to the automatic cleaning and de-scaling cycles,

you are guaranteed perfect enjoyment every day and maximum longevity for your machine.

Removable brewing group

The brewing group is at the heart of every fully automatic coffee machine and it should always be kept clean. A task that doesn't get any more convenient than with a Saeco: remove, rinse and re-insert - finished.

Color coded user interface

Enjoy direct and clear interaction thanks to the self-explanatory icons display. For maximum convenience the icons are colored according to the traffic light colors: Red requires action, Yellow means the machine is "busy" (like heating up). Green is ready to use.

Coffee customization

Philips Saeco machines offer you the possibility to customize the coffee exactly the way you like it - from the most intense espresso to a mild cup of long coffee.

Compact and stylish

Compact and stylish the Syntia is designed to delight both your palate and your eyes - the perfect fit for a modern kitchen.

Ergonomic day-by-day

Philips-Saeco is a synonym for convenience: refilling beans or water, emptying the coffee-dump box or the drip tray, all compartments are directly accessible.
